Bruce Busch
Director of Technology
Fremont Industries, Inc.
4400 Valley Industrial Boulevard North
Shakopee, MN 55379-1859

Mr. Busch,

The North Dakota Department of Health (NDDH) has reviewed the information regarding the use of *Fremont 9134FG* as a heat transfer fluid for closed-loop geothermal heat exchange systems. The NDDH does not object to the use of *Fremont 9134FG* as a heat transfer fluid provided that the composition of the product does not change, the product is used according to the manufacture's specifications, and the product does not adversely affect waters of the state.

Please do not hesitate to contact me at 701-328-5213 if you have any questions.

Sincerely,

Carl Anderson
Ground Water Protection Program Manager
NDDH – Division of Water Quality
